How we cover your hospital and related accounts

We cover your hospital account from your Hospital Benefit.

Doctors, specialists and other healthcare professionals we have a payment arrangement with are covered in full for approved procedures in hospital. You benefit from access to the broadest range of specialists, which represents over 90% of our members' specialist interactions. If you use healthcare professionals we don't have payment arrangements with, we will pay at the rate applicable to your plan (see page 7).

Prescribed Minimum Benefit (PMB) conditions

In terms of the Medical Schemes Act of 1998 (Act number 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of:

- A life-threatening emergency medical condition; and
- A defined list of 270 diagnoses.
- A defined list of 27 chronic conditions.

To access Prescribed Minimum Benefits, there are rules that apply:

- Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions
- The treatment needed must match the treatments in the published defined benefits
- You must use designated service providers (DSPs) in our network. This does not apply in life-threatening emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network once your condition has stabilised.

If your treatment doesn't meet the above criteria, we will pay up to 80% of the Discovery Health Rate. You will be responsible for the difference between what we pay and the actual cost of your treatment.

What is the Discovery Health Rate (DHR)

This is a rate set by us at which healthcare services from hospitals, pharmacies and healthcare professionals are paid.
